Water Heater Accessories

Grundfos Recirculating Comfort System

Convenience and conservation are here! You know what it's like to run the tap and have to wait for the shower to heat up. Waiting for hot water is inconvenient, and it wastes time and money. With a hot water recirculation system, the instantaneous comfort of hot water without water waste are only a knob turn away. The average home wastes over 11,000 gallons a year waiting for hot water!

\$598 PLUS INSTALLATION

Expansion Tank

• Protects plumbing pipes & water heater tank from damage caused by thermal expansion

\$58

Water Heater Pans

- Reduce risk of flooding
